To.
Mr. Anand Chiplunkar
Aqua Products & Services Pvt. Ltd.

Our residential society was facing low water pressure for the past few months, when the problem aggravated I just called Mr. Anand Chiplunkar one morning to find if he has any solution.

His technician arrived our society (Arihant Gardens, Gultekdi, Pune-37) in less than an hour, he explained us the problem and what needs to be done urgently. His team solved the issue professionally & efficiently within the day, the problem is solved with complete satisfaction.

Our society members are extremely delighted with the professional approach, genuine advice and also reasonably priced products & labour charges.

For our society and its members, Anand Chiplunkar is now certainly the most reliable & professional person we are going to depend for our plumbing and water management requirements.

Anand I have recommended your services to my known architects & interior decorators. Today's time a professional company like yours is rare to find.

I am glad that you are part of our BNI chapter. My best wishes to you and team **Aqua Products & Services** for the years to come.
